THE REFLECTION OF 100 YEARS OF EXPERTISE

In 1917, Alexandre Roberge started his modest company in La Sarre, Abitibi-Témiscamingue. Skilled with his hands and passionate about work that was well done, he crafted wooden doors and windows by hand.

In 1950, Roberge became the most important company of its kind in Abitibi-Ouest. It was also in 1950 that Mr. Roberge's son, Jean-Guy, then 20 years old, joined his father in the family business. He later bought it **in 1960**. A formidable challenge lay ahead for the young 30-year-old man. With the same passion, he set up a production line for doors and windows as well as a distribution network throughout the Abitibi-Témiscamingue and Northeastern Ontario regions.

Toward the **end of the 1970s**, the infectious enthusiasm of the Roberge family extended to the third generation, when the two grandsons,

Pierre and Gaétan, joined the company. Since then, the modernization of the door and window factory has made it possible to deliver a product that is continually better suited to the rigors of the Quebec climate.

Between 1999 and 2011, the company opened two sales branches: the first in Gatineau, the second in Nepean. Today the company contributes to the Quebec economy by creating more than 100 jobs.

In 2016, the company was acquired by local entrepreneurs who have in their hearts the local economy, the regional products, and their greatest asset, their employees, who do an outstanding job each and every day. **In 2017**, Roberge celebrated its 100th anniversary and set up its own paint shop.

“

Roberge started its operations in Abitibi more than 100 years ago. Our company's success comes from our highly effective products developed by our dedicated team.

”

Bruno M.

A true craftsman for the past 37 years at Roberge

WHY CHOOSE ROBERGE WINDOWS?

- \ BECAUSE THEY'RE THE **BEST** WINDOWS ON THE MARKET
- \ BECAUSE THEY'RE SPECIALLY DESIGNED FOR OUR **NORTHERN CLIMATE**
- \ BECAUSE THEY MEET THE **HIGHEST QUALITY STANDARDS** IN THE INDUSTRY
- \ BECAUSE THEY'VE BEEN MANUFACTURED BY TRUE CRAFTSMEN **FOR OVER 100 YEARS** IN ABITIBI
- \ BECAUSE THEY'RE ALL AVAILABLE WITH **TRIPLE PANE**

**PROUDLY
CRAFTING
YOUR
COMFORT**

STYLE

- \ Wide selection of window **models** (casement, awning, sliding, hung, fixed or architectural)
- \ High-quality **materials** (all-PVC and PVC/ aluminium)
- \ Colonial or contemporary **designs**
- \ Wide range of **colors** for matching your windows to your home's exterior finishing
- \ **Retrofits** or new **construction**
- \ Unique white gloss **finish** for easy cleaning
- \ Highest quality of **paint**
- \ **Black spacer** that **enhances** the aesthetic appeal of the window
- \ Wide choice of **grills** to match your style

QUALITY

- \ **Three choices of thermopanes:**
 - 7/8" double glass with Low-E and argon gas
 - 1 1/4" triple glass with Low-E and argon gas
 - 1 1/4" triple glass with two Low-E and argon gas
- \ **Customised thermopanes** (frosted, sandblasted or tinted finish, glue chip, safety glass, etc.)
- \ **Maximum insulation** (high performance PVC multi-chambered design)
- \ **Thermopane mould on the inside** (better performance)
- \ **Opening-limiting device** available for added safety (casement, sliding, and hung)
- \ Wide selection of **brickmoulds**
- \ Built-in 1/2" and 3/4" **drywall** return (for easy installation of multiple interior moulds)
- \ Metal **fasteners** attached to all our windows (easy installation)
- \ **High-quality hybrid product** (thicker aluminium, crimped corner, and flawless finish)

WINDOWS

CASEMENT AND AWNING

4000 SERIES

Windows that meet the needs of your retrofit and new construction projects.

Choice of **four all-PVC frames and two hybrid frames**, paintable on the inside and outside.

Structural window for a larger viewing area.

Full 90-degree opening of the operating sashes to make cleaning the outside surface easier.

Triple weather stripping on the sash consisting of a series of three airtight and watertight barriers (gaskets will not stretch or shrink and are completely replaceable in the event of accidental damage).

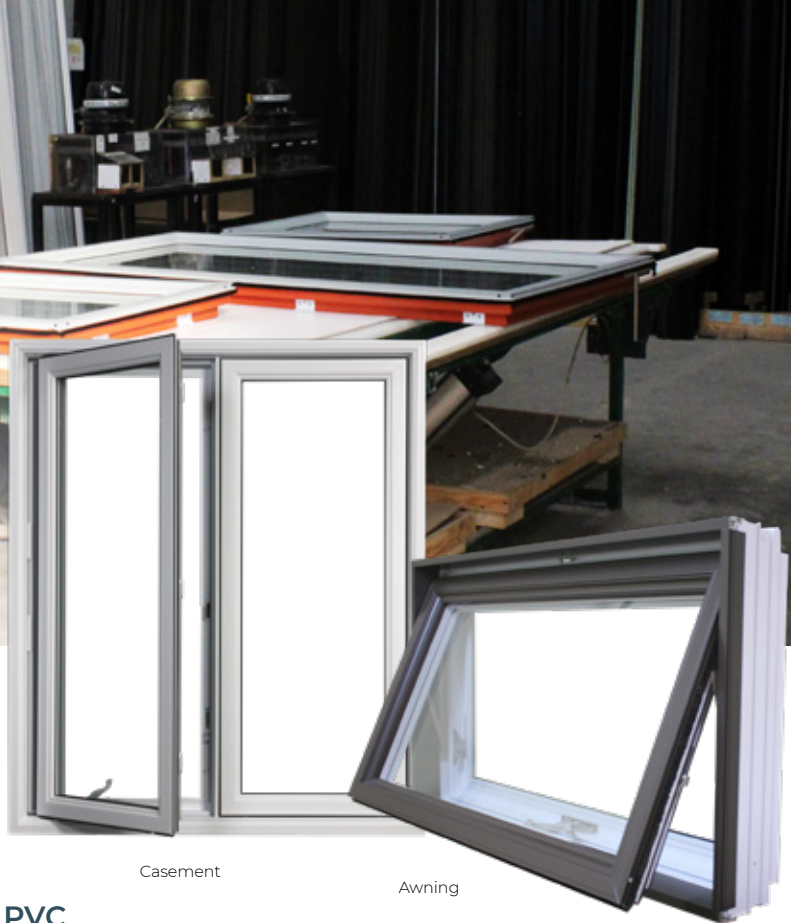

Multipoint lock fitted with a 1 to 5 point stainless steel bar attachment, according to dimensions, providing maximum tightness and greater structural integrity.

Heavy-duty operator from the Encore series with retractable handle.

Solid steel lock-and-keeper system (increases performance and provides maximum intrusion protection).

Triple-pane glass available for **all frames**

Screen built with a coextruded aluminium frame—no corners or handles, no yellowing, greater durability, and better adhesion to the window frame.

Casement

Awning

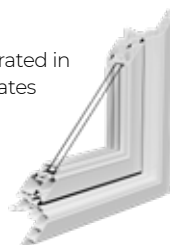

PVC

4406 – 4 5/8"

Quality, performance, price

Design: colonial

Brickmould integrated in the frame (eliminates the risk of water infiltration)

4607 – 6 1/2"

Best quality, best performance

Design: colonial

Brickmould integrated in the frame (eliminates the risk of water infiltration)

Thermopane in the warmest part of the wall (increased condensation resistance)

4402 – 4 5/8"

Retrofit or new construction, possibility of installing from the inside, price

Designs: colonial and contemporary

Designed to accept multiple exterior brickmoulds

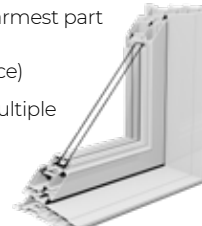

4602 – 6 1/2"

Maximum condensation resistance

Designs: colonial and contemporary

Thermopane in the warmest part of the wall (increased condensation resistance)

Designed to accept multiple exterior brickmoulds

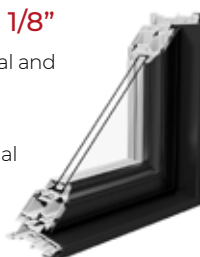

HYBRID

The warmth of PVC with the durability of aluminium

AL4402 – 5 1/8"

Designs: colonial and contemporary

Possibility of adding a colonial brickmould

AL4402MB – 6 1/4"

Design: colonial

Brickmould integrated in the frame (eliminates the risk of water infiltration)

SLIDING AND HUNG

2000 SERIES

Windows that meet the needs of your retrofit, new construction, and self-build projects.

Choice of **four all-PVC frames and three hybrid frames** paintable on the outside only.

Triple weather stripping (oversized at rails) for maximum weather tightness.

Interlock lock and keeper system guarantees maximum security against intruders and creates a water tight seal.

Hung window equipped with a **system of counterweights to make the window easier to open** and close.

Triple-pane glass available for **all frames**.

Two Sliding Versions

- Sliding fitted with a tilting sash that tilts inward — The sash is fitted with chrome-plated tandem wheels for smooth movement.
- Sliding window fitted with a tilting system — The sash tilts inward for full frame ventilation as well as safe and easy cleaning.

AVENUE

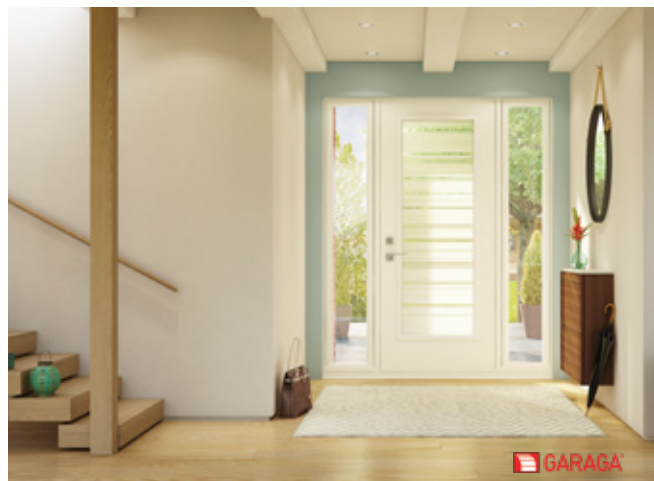

With its bold and atypical composition, Avenue is a minimalist glass with urban influences.

OUR PRODUCTS

A door glass has to withstand the tests of time. Since our beginnings in decorative glass manufacturing, we've integrated new materials and processes to develop innovative technologies and attractive designs.

Our products are designed to help you create warm, inviting spaces that you'll enjoy coming back to night after night.

Many other models available
Consult grouphenovatech.com.

AZUR

With its contemporary or eclectic style, this glass is suitable for both retrofit and new construction projects.

BELMONT

Urban-style glass with an asymmetric and minimalist composition of patinated flat rods and stin finish glass that fits well with the look and materials of contemporary homes.

MISTRAL

Elegant Art-Nouveau style
Simple, slender shapes.

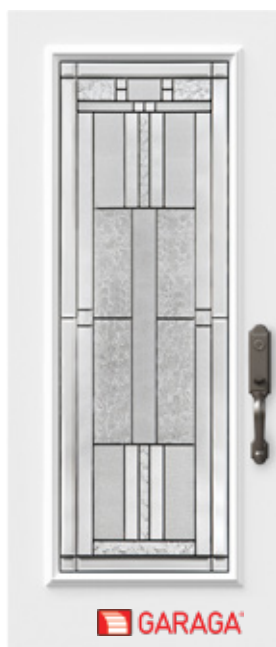

BOLERO

Arrangement of retro and modern textured glass.

CELESTE

A geometric pattern with a refined and balanced light effect.

CACHET*

Blends four striking textures to make your home stand out.

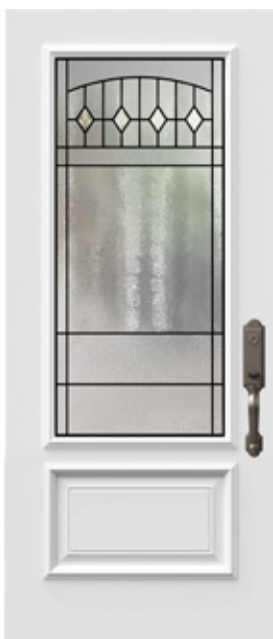

WINCHESTER

Sleek and balanced, the Winchester offers a rich and contrasting blend of satin, clear glass, and black polished rods.

MASTERLINE*

A modern design with alternating strips of polished glass and Screen glass.

LIANO

This stylish decorative glass is a new take on a classic look.

EDGE

Combining privacy and visibility, thanks to its sanded finish glass with a clear surround.

EQUATION

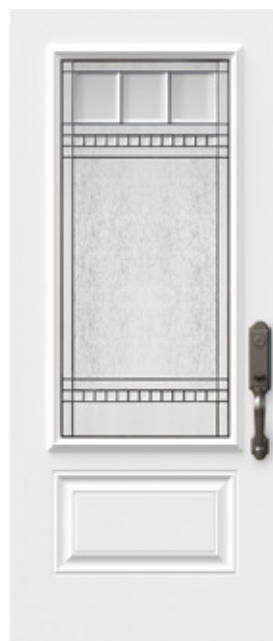

With its modern style, this model offers simplicity with the privacy of sanded finish glass, crossed with distinctive perpendicular lines.

decorative glass

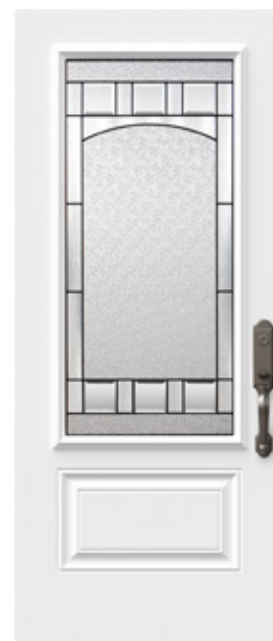

ALYS

This design evokes movement, with its style that is both natural and abstract.

CHANELLE

Adds a stately, elegant, and timeless touch to any home, classic or modern.

BISTRO

With its arched central piece crowned by bevelled clear glass, it offers a consistently classic and natural look.

OUR COMPANY

Verre Select stands out as a leader in the decorative glass industry. Through an efficient network of distributors, we've assisted customers in their renovation and construction projects for the past 37 years.

Known for our quality products, we create the current trends by constantly expanding our product range to make your home distinctive, comfortable, and personalized. Our innovative ideas ensure that you're always getting the most recent, original, and exclusive products.

PATIO DOORS

Novatech®

550

The 550 door combines the sturdiness of wood with the durability of PVC. With its PVC panels welded to the narrow framework, this door lets in more light and enhances your living space. Its outstanding maintenance-free finish makes it perfect for renovation projects. Installation is easy thanks to the reinforced wood/PVC frame.

IMAGINE

SLIDING GARDEN DOOR

This has all the charm of a garden door without the inconveniences of a swinging door. The large glass surfaces give this sliding door a classic look that lets you arrange the interior and exterior of your home without obstruction. Complement your patio door with one of our decorative options, such as a grille or integrated mini-blinds.

ELEMENT

HYBRID PATIO DOOR

The Element door combines the energy efficiency of PVC with the unequalled sturdiness of aluminium exterior cladding. This door comes in a wide range of colors so you can match it to your decor, no matter what the style, at no additional charge.

URBANIA

SLIDING ALUMINIUM DOOR

Enjoy your living space to the fullest with a door that makes the outdoors a natural extension of your living space. With its oversized panels and narrow frames, the Urbania door offers a panoramic view that will open up your home. It is durable, sturdy, and maintenance free, especially for colored doors.

LOFT

ALUMINIUM TILT'N'SLIDE DOOR

With its effortless operation, the oversized opening panel of the Loft door creates a seamless vision between the interior and the exterior that opens up your home. The Loft's lift-and-slide system allows the manufacture of large patio doors with only two panels. This design frees your field of vision from any unnecessary mullions.

CUSTOM COLORS

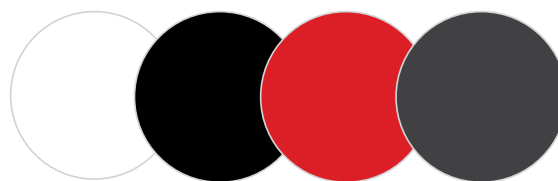

WE DO THE PAINTING!

Roberge has its own paint shop in Abitibi, where we paint PVC or hybrid doors and windows. Offered in a wide range of colors and completely manufactured in the region, our products blend perfectly into your most colorful projects.

We use high-end reflective paint combined with conveniently located air cavities on the profiles to preserve the contraction/dilation properties of the PVC.

POPULAR COLORS*

White Black Bright Red Smoky

PVC

Our PVC extrusions are manufactured from white resin. We also offer a wide range of fashion colors that we've specially selected for you.

HYBRID

We offer two standard colors for the hybrid model: black and commercial brown. We also offer a wide range of fashion colors that we've specially selected for you.

Looking for an exact color to perfectly blend your doors and windows with your decor?

Roberge also offers the possibility of painting them in the color of your choice and can add other colors according to your needs. Bring your colors sample to the store and we'll be happy to integrate it to our products!
